Summary

Software Name	Vodafone Mobile Connect Lite
Version	3.1.2.156
Issue date	November 1 st , 2007

Vodafone Mobile Connect Lite is the connection manager being shipped on devices such as USB connected modems.

What is new in this release

- Support for the Option Express HSUPA data card (GE0301).
- Installation problems resolved causing the program to “Cancel”
- Now possible to perform a “run as” installation without being logged in as an administrator
- Installation problems resolved on machines that did not have Windows Installer 3.1 pre-installed
- VMC R9.2 is now being detected by the installer
- Improved behavior when the notebook goes into power saving mode/standby
- Fixed SMS Service Center for some countries

Installation Notes

- Vodafone Mobile Connect Lite is a connection manager dedicated to USB modems and similar devices which have necessary software integrated into the device. That means no installation CD or similar is required to set up the devices. Vodafone Mobile Connect Lite gets flashed onto the device itself.
- If your modem and software are currently running satisfactorily, it may not be necessary to update the software. To determine if you should update the software, refer to the Version Information section.

Determining which version is installed

- 1) Start Vodafone Mobile Connect (Plug in your USB modem)
- 2) From the Menu bar click on <Help>
- 3) Click on <About>
- 4) Details window will be displayed
- 5) The VODAFONE MOBILE CONNECT LITE version can be found at the bottom of the window

Requirements

Supported operating systems

Operating System	Required Service Pack & Patches*
Windows Vista 32 and 64 Bit Editions (Home Basic, Home Premium, Business, Enterprise and Ultimate)	<ul style="list-style-type: none"> • No dependencies

Huawei E270	11.304.02.03.00	√	√	√	√
Huawei E272	11.304.08.00.00	√	√	√	√
Novatel Wireless MC950D	3.10.04	√	√	√	√

ExpressCard

Device	Recommended Firmware	Windows 2000	Windows XP	Windows Vista 32bit	Windows Vista 64bit
Huawei E870	11.304.02.03.00	X	√	√	√

PC Card

Device	Recommended Firmware	Windows 2000	Windows XP	Windows Vista 32bit	Windows Vista 64bit
Huawei E800	11.305.05.00.00	√	√	√	√
Huawei E660A	11.309.01.01.00	X	√	√	√
Option GT Express HSUPA (GE0301)	2.7.1Hd	X	√	√	√

Firmware

- If the device is detected and works properly it is not necessary update the firmware.
- A working VMC installation on a Notebook/PC which detects the device is pre-requisite to performing a firmware upgrade.
- We recommend contacting the support hotline in your local country for instructions on firmware upgrade if one is needed.

Determining which firmware is installed

- 1) Start Vodafone Mobile Connect
- 2) From the Menu bar click on <Help>
- 3) Click on <Diagnostics>
- 4) The <Device> tab will show the "Firmware Version" of the device

Huawei E220 Modem with Windows Vista

Please notice that in case you want to use your E220 Modem with Windows Vista you require firmware version 11.110.01.05.00 or higher.

It is not possible to apply the firmware upgrade on a PC running Windows Vista. Please follow the instructions below to make your E220 Vista capable:

- Plug in the E220 device to a USB port on your computer
- The Drivers and VMC Lite software will be automatically installed
- Close the VMC Lite software in your Desktop
- Start the Firmware Updater to install the new firmware version
- Start the Application Installer to install VMC Lite to your E220 modem

If you wish to update your Firmware and VMC Software on your Huawei E220 then you must first do this via a Windows XP PC – once you have undertaken this upgrade on a Windows XP PC you can use the updated device on a Windows Vista PC.

Language & Network Support

The following languages and mobile networks are supported with this software:

Supported Languages	
• Bulgarian	• Greek
• Croatian	• Hungarian
• Danish	• Italian
• Dutch	• Lithuanian

Removal Instructions

In order to remove the VMC Lite before installing a later version of the software, please proceed

- to the Windows <Control Panel>
- Double-click <Add or Remove Programs> and scroll down to <Vodafone Mobile Connect Lite> or <Vodafone Mobile Connect Lite Runtime>
- Then click the <Remove> Button and follow the instructions on screen.

Limitations of this software

- Removing the software causes issues on Windows Vista 64-bit Edition. Clicking "OK" 18 times is necessary to complete the removal.
- Administrative privileges are required for the initial set up (and connect) of Vodafone Mobile Connect Lite.
- E220 USB Modem requires at minimum firmware version 11.110.01.05.00 to work on Windows Vista. For further details please refer to the Huawei E220 Modem with Windows Vista chapter.
